Introduction

The Members of the Legislative Assembly Pension Plan was established effective May 7, 1969, by the M.L.A. Pension Act to provide a contributory pension scheme for Members of the Legislative Assembly (MLAs).

The M.L.A. Pension Act was repealed on November 1, 1985 and replaced by the Members of the Legislative Assembly Pension Plan Act. Under the new legislation, policy and administration became the responsibility of the Lieutenant-Governor in Council and the Minister respectively, while the Members of the Legislative Assembly Pension Plan Board was assigned an advisory and appellate role.

Plan Overview

Participation in the Members of the Legislative Assembly Pension Plan is voluntary and MLAs may elect to participate at any time while holding office. It is a contributory defined benefit plan under which the MLA contributes at a rate of 7.5 per cent of the allowance paid with respect to each office held. The Government makes a matching contribution. The net amount of pension contributions less payments is deposited to or withdrawn from the Pension Fund pursuant to the Pension Fund Act. The income of the Pension Fund accrues to and forms part of the Fund. The Government of Alberta guarantees the payment of all benefits under the Members of the Legislative Assembly Pension Plan.

Those members who retire with at least five years of pensionable service in the office of MLA are entitled to a pension. Those members who retire from an office other than MLA with at least one year in that office and at least five years as an MLA are entitled to a pension in respect of that other office. Pension benefits are based on four per cent of the highest average of pensionable allowances for three consecutive years, times the number of years pensionable service in an office. If the member has an eligible spouse, unless a waiver is signed by that spouse, the pension paid must be in the normal form of pension. The normal form of a pension is payable for the life of the member with a 75 per cent spousal survivor benefit. Single members may elect a life pension, choosing a 5, 10, 15 or 20 year guarantee period. They may also elect a joint life pension based on their life and that of a nominee.

Members may retire at any time if five years of pensionable service has been accumulated. If retirement takes place after age 55, no actuarial reduction is applied to the benefit. The Plan also makes provision for those members who die prior to retirement and have accumulated at least five years of pensionable service. In such cases the surviving spouse is entitled to either a spousal pension or a lump sum benefit. The spousal pension is equal to the survivor benefit of a non-reduced joint life pension. A beneficiary other than a spouse must accept a lump sum benefit.

Review of Operations

The Members of the Legislative Assembly Pension Plan is administered by Alberta Treasury, Payroll and Pensions.

Automation of and improvement to pension plan activities continued although on a reduced scale. Of particular note was the introduction of an automated Notice of Return for the Legislative Assembly Office resulting in more meaningful pension information in an improved format.

Annual statements containing information on pensionable service, contributions and prior service purchased were produced and distributed through the Legislative Assembly Office to all active members.

Actuarial Liabilities

An independent actuarial valuation carried out at March 31, 1988, estimated the accrued liability of the Members of the Legislative Assembly Pension Plan to be \$43,525,000. The normal actuarial cost of the plan as a percentage of payroll was estimated at 58.1 per cent.

Participation

At March 31, 1988, there were 90 active contributors under Part 1 of the Act, 26 under Part 2 of the Act and 4 under Part 3 of the Act for a total of 120 active contributors.
